

SEVEN PERSONS  
DIE IN STORMTerrific Hurricane Sweeps Along  
South Atlantic Coast.

## CHARLESTON SUFFERS MOST

Death List Liable to Increase and a  
Large Number of Persons Are In-  
jured—Property Damage Estimated  
at Over One Million Dollars—Wind  
Reaches Velocity of Ninety Miles  
an Hour.

Charleston, S. C., Aug. 29, via Sum-  
merville, S. C.—Seven persons known  
to be dead, many injured and property  
damage of more than \$1,000,000, so far  
as can be ascertained, is the damage  
wrought by the terrific storm which  
swept Charleston Sunday afternoon,  
isolating that city from the rest of  
the world.

Great relief was felt when it was  
learned that all the people on Sulli-  
vans island are safe, having been  
taken off by the ferryboat Lawrence,  
which tied up over night at Mount  
Pleasant wharf.

The harbor is filled with wreckage  
of small boats, schooners and launches;  
many piers are washed away and in  
the city the streets are strewn with  
fallen trees, roofs, fences and other  
debris.

Among the principal buildings dam-  
aged are the customs house, postoffice,  
St. Michael's church and the Wahoo  
fertilizer mills, which practically were  
ruined. The street car, electric, tele-  
phone and fire alarm systems are out  
of commission.

All trains are leaving the city from  
an old depot, the floors of the new sta-  
tion and the tracks being under water.

At the height of the storm the wind  
reached a velocity of ninety-four miles  
an hour, while the tide rose eight feet  
at the battery in front of the city, this  
being three feet short of the record  
established in 1903. The rainfall was  
more than two inches. The disturbance  
was reported to be west of  
Charleston and working away.

Splendid work in rescuing individ-  
uals and families was done by the  
soldiers from Fort Moultrie, the res-  
cued being taken care of at the govern-  
ment reservation.

Eight or ten schooners and small  
steamers either were sunk or dam-  
aged. The schooner Edwina has nine  
feet of water in her hold; a few  
boards is all that is left of the pilot  
boat Sophia Amellak; the dredge  
Sewee was sunk; the schooner Laura  
Hall is ashore on a mud flat up the  
Cooper river and the schooner Hum-  
marock was seriously damaged by  
pounding. The naval reserves also  
suffered some loss. Their boat was  
wrecked and their cutter barely saved.

## Heavy Damage at Savannah.

Millen, Ga., Aug. 29.—Passengers ar-  
riving from Savannah said that the  
wind reached a velocity of eighty-  
eight miles an hour, accompanied by  
heavy rain. Roofs were blown off,  
trees uprooted and telegraph and tele-  
phone wires impaired. No loss of life  
was reported.

## WISCONSIN TOWN WIPED OUT

Fire Does Nearly \$200,000 Damage  
at Elmhurst.

Elmhurst, Wis., Aug. 29.—Fire broke  
out in the home of George Wunder-  
lich, caused by a spark from a thresh-  
ing machine engine. In less than an  
hour the entire village, including the  
mill and lumber yards of Mr. Wunder-  
lich, was in ruins.

The loss is estimated to be between  
\$175,000 and \$200,000 and of this  
amount the Wunderlich loss is esti-  
mated at \$145,000.

Practically all of the village saved  
was a church, a small hotel, a saloon  
and the Chicago and Northwestern  
depot.

## Recall Election in Wichita.

Wichita, Kan., Aug. 29.—Wichita  
will hold a recall election, probably on  
Oct. 3, to decide whether Mayor J. H.  
Graham and City Commissioners E.  
M. Leach and Robert B. Campbell are  
to retain their offices. The mayor and  
commissioners met and voted to call  
the election as petitioned for by about  
3,500 persons, who desire the removal  
of these city officials.

TARIFF WILL BE  
MAIN QUESTIONPresident to Make Revision the  
Chief Issue in 1912.

## PREPARING HIS ADDRESSES

While Taft Will Speak on Many Sub-  
jects During His Coming Western  
Trip the Tariff Problem Will Re-  
ceive Most of His Attention—In-  
tends to Fight Progressives on Their  
Native Heath.

Beverly, Mass., Aug. 29.—So far as  
President Taft himself is concerned the  
tariff will be the main issue of the  
1912 campaign. While the presi-  
dent will speak on many subjects on  
his Western trip it is certain now that  
tariff revision will receive most of his  
attention.

Following his speech to the Essex  
County Republican club at Hamilton  
on Saturday the president began to  
prepare other speeches on the tariff.  
He secured copies of his veto mes-  
sage on the wool, farmers' free list  
and cotton bills and at once set to  
work upon addresses which he ex-  
pects to deliver later, backing up  
those vetoes.

Mr. Taft is said to realize that he  
must not merely defend himself for  
having rejected these bills, but that he  
must attack the Democrats and pro-  
gressive Republicans who put them  
through congress.

The attack upon the Democrats the  
president can make almost anywhere.  
It is understood the fight upon the  
progressives will be confined largely  
to their own territory. The president  
will carry the war West into the  
"enemy's country."

## Attack Clearly Defined.

The nature of attack is pretty clear-  
ly defined already—it will be, in sub-  
stance, that the progressives who  
voted for a tariff board should have  
been willing to wait for its report;  
that the revision bills the Democrats  
and progressives drew at the special  
session were "ill considered" and  
"badly drawn," and that great indus-  
tries of the country should not be put  
in jeopardy by such legislation when  
revision, if recommended by the tariff  
board, might be expected anyway a  
few months later.

It is also probable that the presi-  
dent will promise tariff reform so far  
as he can bring it about at the next  
session of congress.

It is quite possible that the pro-  
gressives will be under fire from the  
president also on the subject of reci-  
procity. The president has heard  
enough from Western congressmen to  
know that reciprocity is not popular  
in some states west of the Mississippi.

Of the other main topics already  
selected currency reform is admitted  
to be of great interest because of the  
idea that the proposed legislation may  
foreshadow a central bank. The presi-  
dent may talk extensively on this sub-  
ject.

## TOUR WILL BEGIN SEPT. 15

President Taft to Visit Twenty-four  
States.

Beverly, Mass., Aug. 29.—Twenty-  
four states of the Union will be vis-  
ited by President Taft on the swing  
around the circuit, according to a  
schedule partially completed at the  
executive offices. The president will  
start Sept. 15 and, with the exception  
of five states and Arizona and New  
Mexico, he will pass through every  
commonwealth west of the Missis-  
sippi.

Included in the twenty-four are  
Massachusetts, New York, Pennsylvania,  
Ohio, Michigan, Illinois, Indiana,  
Missouri, Iowa, Kansas, Nebraska, Col-  
orado, Wyoming, Utah, Nevada, Cali-  
fornia, Oregon, Washington, Idaho,  
Montana, South Dakota, Minnesota,  
Wisconsin and Maryland.

## BIG "SLUSH" FUND ALLEGED

Canadian Paper Offers Reward for  
Names of Contributors.

Ottawa, Ont., Aug. 29.—Under black  
headlines, "Canadian Election Cam-  
paign Fund," the Montreal Star, which  
is opposing reciprocity, published the  
following:

"The Montreal Star hereby offers  
\$25,000 reward for information, placed  
in the hands of three judges of the  
supreme court of Canada and three  
judges of the superior court, three  
Conservatives and three Liberals, that  
will, in the opinion of these judges,  
enable the court to trace to its source  
the enormous campaign fund sent  
from the United States to Canada to  
be used in influencing the judgment  
of the Canadian people in deciding  
what is to be a national question of  
supreme importance."

## Helping a Fellow Out.

He (who stutters badly)—I lul-lu-  
love you mum-mum—I lul-love you  
mum-mum—more than tut-tut-tongue  
can tut-tut—more than tut-tut-tongue  
can tut-tut—  
She (eagerly)—Don't you know the  
deaf and dumb alphabet?

## WILLIAM S. KENYON.

Iowa Senator Would Place  
Trust Lawyers Behind Bars.

## WOULD JAIL THE LAWYERS

Senator Kenyon Discusses Control of  
Corporations.

Fort Dodge, Ia., Aug. 29.—"It is  
time this government began to control  
its corporations instead of letting  
them get control of the government,"  
said Senator Kenyon in an interview  
here.

"It is almost impossible to do any-  
thing with them under present laws,  
but I hope to see the day when they  
can be handled. I believe the Sher-  
man anti-trust law is the means by  
which they will be controlled. There  
is only one correction I would offer to  
that bill and that is that the fines be  
eliminated and that violations be  
made punishable by jail sentence. We  
must get at the foundation of this evil  
and the only way we can hope to cope  
with the problem if by jailing the law-  
yers who make it possible for these  
corporations to organize. When you  
attempt to jail a lawyer you will have  
a good job on your hands."

FAVORS LA FOLLETTE  
FOR THE PRESIDENCYGifford Pinchot Comes Out for  
Wisconsin Senator.

St. Paul, Aug. 29.—Gifford Pinchot,  
former chief forester in the depart-  
ment of agriculture, who stopped off  
in St. Paul on his way to Alaska,  
where he purposes to get first hand  
knowledge of that country's resources,  
declared that the development of that  
territory was going to be one of the  
two big questions before the next ses-  
sion of congress. Mr. Pinchot also  
came out in words of strong praise for  
Senator La Follette and made it plain  
that he favors the Wisconsin man for  
president in preference to Mr. Taft.

Mr. Pinchot's declaration for La Fol-  
lette was one of the features of the  
short talk which he made at an in-  
formal gathering at the Saint Paul  
hotel, where a number of progressives  
had been invited to meet the former  
forester. Mr. Pinchot's relations with  
the president have been well known,  
but this is believed to be the first time  
he has declared himself publicly in  
such warm terms for the Wisconsin  
senator.

## ALLEGED SPY IS ARRAIGNED

German Lieutenant Who Was Ar-  
rested in England.

Plymouth, Eng., Aug. 29.—Lieuten-  
ant Philip M. Schultz of the Thir-  
teenth Hussars, stationed at Frank-  
fort-on-the-Main, Germany, who was  
arrested here Aug. 19, charged with  
espionage, was arraigned in open  
court and the department of public  
prosecutions made known part of the  
government's case.

According to the public prosecutor  
Lieutenant Schultz was especially  
commissioned by the German authori-  
ties to obtain precise information as to  
how far the British government was  
backing up France in the Moroccan  
dispute. Specific questions, copies  
of which were found among his be-  
longings, were to be asked by Schultz  
regarding the naval preparations, the  
fortifying of ports and the commis-  
sioning and reserve of ships, etc. In-  
sistence was laid on the necessity of  
the information coming from the offi-  
cers of the active list of the British  
navy. A copy of the cipher employed  
by Schultz was also found.

## JAMES J. HILL WILL SPEAK

To Deliver Principal Address Before  
Illinois Bankers.

Chicago, Aug. 29.—James J. Hill,  
the railroad magnate, will deliver the  
chief address on the banker-farmer  
program at the annual meeting of the  
Illinois Bankers' association in Spring-  
field Oct. 11.

Proposed legislation affecting the  
bankers and railroads will be discussed  
in detail at the meeting. Presidents  
of several railroads will attend.

TWO MENTIONED  
FOR PRESIDENTSpeaker Clark and Senator La  
Follette Have Booms.

## BOTH HELPED BY SESSION.

Clark Often Nominated For Highest  
Office Even by Political Opponents.  
Possible Senators From New Mexico  
and Arizona—South Objected to Pub-  
licity in Primaries.

By ARTHUR W. DUNN.

Washington, Aug. 29.—[Special.]—It  
is unusual for the presidency should come  
out of a session of congress, such as  
recently adjourned, with so much in-  
dividual credit. Beyond question  
Speaker Clark and Senator La Fol-  
lette gained more in the estimation of  
the public than any others who were  
connected with the extra session of  
congress. It is true that Majority  
Leader Underwood and Minority Lead-  
er Mann both advanced to a high rank,  
but neither of them to any such extent  
as the speaker and the Wisconsin sen-  
ator. Besides neither Underwood nor  
Mann is really among the presidential  
possibilities, though both may get dele-  
gates in the next conventions. Clark  
was several times nominated by mem-  
bers of the house for president and  
quite often Republican members did  
the nominating. While Senator La  
Follette is spoken of frequently as a  
presidential possibility the outlook is  
not so bright as to make him serious  
about it.

Two men lingered in Washington a  
few days after adjournment and then  
went west hoping that ere long they  
may return as senators. They are  
Delegate Andrews of New Mexico and  
Delegate Cameron of Arizona. Ever  
since the beginning of the present ad-  
ministration they have been fighting  
for admission of their territories as  
states and now there is a prospect that  
before the next session meets state-  
hood may be a fact. They were asked  
if they intended to return as senators.  
"We are going to try," replied Cam-  
eron, while Andrews looked wise.

## Caused Ill Feeling.

Probably no other measure adopted  
in congress caused as much ill feeling  
between Democrats as the campaign  
publicity bill in its final form. Many  
southern members objected very  
vigorously to it. The speeches made by  
different men showed bitterness. Con-  
gressman Rucker of Missouri, who  
had charge of the measure, came in for  
the most severe criticism, although  
Senator Reed of the same state was  
mentioned even at the expense of par-  
liamentary law, which says that no  
mention must be made in one house of  
what transpires in the other. Bartlett  
of Georgia talked rather severely about  
Reed, and even more so about Rucker.  
The southern men objected strenuously  
to the application of the publicity bill  
to primaries because it invaded the  
rights of the states, in their belief.

## Sims Thunder.

Congressman Sims told the house  
that he had been a victim of appropri-  
ation of his good ideas. He claimed  
to be the original man who insisted  
that the speaker should not appoint  
committees. He said he had long ad-  
vocated the publicity of caucus pro-  
ceedings, yet Bryan and Underwood  
had both appropriated and were advo-  
cating the idea. But he has another  
idea. He thinks that if the pair list  
were abolished there would be larger  
attendance of members. The pairs are  
a "humbug," according to the Ten-  
nessee statesman. He thinks if there  
were no pairing allowed members  
would attend the sessions of the  
house instead of going away to look  
after their private business. He was  
willing any one should appropriate the  
idea if he would only put it through.  
If Sims could also have members doc-  
ked who did not attend the sessions of  
the house he would find it more ef-  
fectual than abolishing the pairs.

## Running to Extremes.

Pairing in the house does run to ex-  
tremes at times, for there is no pre-  
tense that the men paired would vote  
for anything save their party con-  
ventions, and many questions come up  
which are not in the least partisan.  
In the senate announcements like this  
are made every time there is a vote.  
"My colleague is unavoidably absent  
and is paired," etc. The "unavail-  
able" is simply that the colleague has  
gone home or is away from Washing-  
ton, sometimes in Europe. But it  
would be contrary to the "rules of the  
game" to tell the exact facts in the  
senate.

## Knew About Tariff Bills.

Champ Clark said that many men in  
the house knew a great deal about  
tariff bills and mentioned several.  
"The gentleman from Illinois, Mr.  
Cannon," said Clark, "while not pre-  
sent when the first tariff bill was made  
in 1890, has been present at nearly all  
the rest of them. I am rather in-  
clined to the opinion that the distin-  
guished gentleman from Illinois, Mr.  
Mann, and myself know something  
about tariff bills. He voted against  
the Payne bill—bless his heart for do-  
ing it. I yielded him twenty minutes'  
time to make his speech, the best he  
ever made in his life."

Of course the speaker's remarks re-  
ceived vociferous applause from his  
party friends in the house.

## Taxes.

Taxes were first levied by Solon, the  
original Athenian legislator in 540  
B. C.

## C. A. LINDBERGH.

Minnesotan Sees Very Little  
Chance of Tariff Revision.

## LITTLE CHANCE OF REVISION

Lindbergh Thinks Congress Cannot  
Pass Tariff Bills.

St. Paul, Aug. 29.—There is little  
probability of any tariff revision be-  
ing accomplished by the next session  
of congress, according to Representa-  
tive C. A. Lindbergh of Little Falls,  
who was in St. Paul to attend the re-  
ception to Gifford Pinchot. There will  
be a great deal of other work to do,  
including all the annual routine work  
and the appropriation bills to pass, he  
said. He looks for a report from the  
tariff board, however, and efforts un-  
doubtedly will be made to pass some  
revision bills.

When asked regarding the report  
that he might be a candidate for  
United States senator next summer  
Mr. Lindbergh evaded a direct answer  
by saying that he had not thought  
about the matter. "I am trying not  
to think about politics yet for a few  
months," he said. "Next March will  
be time enough to think of politics."

DECLARES BEATTIE  
ADMITTED MURDERCousin of Accused Man Springs  
Sensation at Trial.

Chesterfield Court House, Va., Aug.  
29.—Between gulps of intense emotion  
Paul D. Beattie, cousin of Henry Clay  
Beattie, Jr., who stands indicted for  
the murder of his wife, revealed on  
the witness stand that the accused  
told him twenty-four hours after the  
murder how sorry he was he had done  
it, a circumstance relating to the  
crime that the witness hitherto had  
suppressed.

Coming as dramatically and as un-  
expectedly as the pathetic tale an  
hour before of Mrs. R. V. Owen, moth-  
er of the dead woman, as to the do-  
mestic infelicity of her daughter due  
to the husband's condition the brief  
but thrilling testimony given by Paul  
Beattie created a profound sensation.  
Paul Beattie, at the coroner's in-  
quest a nervous wreck, but now strong  
and determined, poured out a tale  
which confessedly had troubled his  
mind, not only because he purchased  
the shotgun for Henry, but because he  
did not tell all he knew of the case.  
With quivering lips and tear dimmed  
eyes he set forth the story against  
which his heart and sympathy had for  
days been revolting.

"I hated to testify against my own  
flesh and kin," he murmured as the  
muscles of his throat pulsed, "but  
my wife, my child and the duty I owe  
to my city forced me to do so."

## CONFERENCE IS POSTPONED

Illinois Central Officials and Union  
Leaders Will Discuss Demands.

Chicago, Aug. 29.—The expected  
conference between officials of the  
Illinois Central railroad and repre-  
sentatives of the federated shop em-  
ployes who threatened to go on strike  
unless their organization is recog-  
nized by the railroad was postponed.  
President McCleary of the federation  
and the delegation which came to Chi-  
cago with him from Paducah, Ky., met  
with the officials of the nine unions  
which compose the recently formed  
federation. The plans to demand that  
the road's officials meet with the rep-  
resentatives of the new organization  
were completed at these meetings.  
The international officers of the  
unions involved, it is said, agreed to  
support President McCleary and Sec-  
retary Bowen in the demands to be  
made.

## WITH HAMMER AND TONGS

Champ Clark Declares He Is Going  
After Taft.

Quincy, Ill., Aug. 29.—Champ Clark,  
speaker of the house of representa-  
tives, who is here for a few days, did  
not learn of President Taft's speech  
at Hamilton, Mass., Saturday until  
now.

"President Taft will hear from me,  
for I am going after him with hammer  
and tongs," said Mr. Clark. "The in-  
surgents can take care of themselves,  
but I will reply for the Democrats."

CANNOT CONCEDE  
MEN'S DEMANDS

## CUMMINS JOINS THE REVOL

Openly Opposes the Renomination of  
President Taft.

Des Moines, Aug. 29.—Criticism  
ing the action of the president with  
respect to the wool bill, the farmers  
free list bill and other measures of  
the extraordinary session of congress  
which has just closed, Senator A. B.  
Cummins has come out with the en-  
dorsement of some other Republican,  
preferably Senator La Follette, for the  
leader of the party in the campaign  
of 1912.

"Taft," said Senator Cummins, "is  
out of harmony with the political

Vice President of Harriman Lines  
Gives Reasons.

## GOES DEEPLY INTO DETAILS

Julius Kruttschnitt Declares That to  
Concede to Shop Employes the  
Points Desired Would Mean Chaos  
and Diminish the Ability of the Cor-  
porations to Fulfill the Duties Im-  
posed Upon Them by Law.

San Francisco, Aug. 29.—That to  
grant the demands of the Federation  
of Shop Employes of the Harriman  
lines would mean chaos, and that it  
would diminish the ability of the cor-  
porations to fulfill the duties imposed  
upon them by law, was the statement  
made by Julius Kruttschnitt, vice presi-  
dent and director of maintenance and  
operation of the Harriman roads.

Mr. Kruttschnitt took up in detail  
the reasons for refusing the demands  
of the federated shopmen, saying:

"These are the reasons why we de-  
cline to surrender to an irresponsible  
committee of federated employes, rep-  
resenting a very small portion of the  
public, trusts confided to us by the en-  
tire public and why we will not con-  
cede to such a committee the right to  
dictate whether we shall or shall not  
fulfill for twenty millions of people in  
seventeen states the duties clearly  
prescribed by law. The employes' de-  
mands are substantially as follows:

"First—Recognition of the shop em-  
ployes' federation.

"Heretofore issues arising with a  
machinist, boiler-maker, blacksmith or  
sheet metal worker were taken up  
with his associates of that craft.  
When not successfully adjusted strikes  
of that craft have followed; but they  
were not serious enough to prevent  
the roads performing their public ser-  
vices, for which they were created.  
Under the change proposed an issue of  
a small road of the system in Louisi-  
ana might stop all shop work through-  
out the system by requiring members  
to strike in California, Oregon, Wash-  
ington or Nebraska.

"Second—All present or future em-  
ployes will join the federated associa-  
tion within thirty days.

"This means the discharge of all  
employes who will not join, or an ab-  
solute closed shop.

"Third—That the company agree  
that the final settlement of differences  
shall rest with a federated committee  
representing all five crafts.

## Encourage Unreasonable Demands.

"This would place the employes of  
all crafts behind a demand made by  
any one craft and would encourage un-  
reasonable demands not likely to be  
made by individual crafts.

"Fourth—The restriction of the  
number of apprentices.

"This would deny to American boys  
the opportunity to learn trades.

"Fifth—A flat increase of 7 cents  
per hour for all mechanics, appren-  
tices and helpers, an average for the  
entire shop forces of 23 cents and a  
reduction of hours and other demands  
averaging 13 per cent additional.

"The Southern Pacific is now pay-  
ing higher wages than any other rail-  
road in the United States and has in-  
creased the pay of all shop crafts 12½  
per cent in the last five years.

"Sixth—The abolishing of piece, pre-  
mium or bonus systems, shop fore-  
manship to be filled by promotion  
from federation employes. This is in  
direct conflict with the public opinion,  
recently expressed, that increased ex-  
penses of carriers should be met with  
increased efficiency of operation and  
not by increase of freight rates.

"Seventh—That no form of physical  
examination or personal record shall  
be required.

"This denies to the company the  
right of every citizen to require of  
persons offering their services evi-  
dences of competency, good character  
and health and deprives the companies  
of all protection under the fellow serv-  
ant laws of many states.

"Eighth—That, if forces are re-  
duced, employes are to indicate who  
should be laid off.

"This would embarrass the company  
in efforts to increase efficiency by rid-  
ding the service of inefficient em-  
ployes.

"Ninth—That no employe belonging  
to the federation be discharged with-  
out consent from the employes' com-  
mittee.

"This would require the company in-  
volved to meet a committee represent-  
ing all its craftsmen, which committee  
would owe allegiance to a general  
committee composed of allied crafts-  
men of all lines of the Harriman sys-  
tem."

## To Overawe Baggage-men.

Chicago, Aug. 29.—The National As-  
sociation of Traveling Men was orga-  
nized here, its declared purpose being  
to offer a front so strong in numbers  
as to be able to command respect  
from baggage-men and draymen. Lew  
Rothschild of Chicago was chosen  
president.

## Survives Fifty-five-Foot Fall.

Duluth, Aug. 29.—Ophelia, the ten-  
year-old daughter of Mrs. A. J. Dun-  
ahue, fell fifty-five feet in the eleva-  
tor shaft at the Spaulding hotel here and  
is in a hospital, dangerously hurt, but  
hope is entertained for her recovery.

were visitors in Brainerd today on  
their way home from the lakes along  
the M. & I. They were Mr. and  
Mrs. J. W. Brushgood, Miss Margaret  
Lee, Orell Lee, Miss Ina Lee, Mrs. T.  
Lee and Mrs. G. Cubley.

Albert LaFond, of Long Lake town-  
ship, celebrated his 50th birthday  
last evening and a large number of  
friends and relatives were present at  
the celebration. Cards and other  
amusements were indulged in and a  
bountiful supper was served.

Ostermoor mattresses, at D. M.  
Clark & Co. 7tf

F. S. Graham, cashier of the Cit-  
izens State bank, went to St. Paul  
this morning. Mr. Graham was up  
since three o'clock waiting for the  
train and felt quite relieved when he  
saw it steam into the station. He  
claims he lost six hours of his one day  
vacation waiting for the train.

Salisbury Adams, of Deerwood,  
was in the city today on his way to  
Fort Ripley. Mr. Adams wanted to  
make several purchases but had to  
give it up. "I wanted to get a  
shave," said Mr. Adams, "but there  
doesn't seem to be a barber in this  
town. What's up anyway, today?"

## PROGRAM FOR LABOR DAY

Committees Have Been Soliciting Funds and Making Arrangements for the Celebration

### ALL UNIONS WILL PARADE

Two Bands Marching—Two Labor Day Orations, One by Lattimer on McNamara Case

Labor day will be most appropriately celebrated in Brainerd on Monday, September 4. The general committee of the Trades & Labor assembly having charge of these arrangements consists of A. A. Weidman, chairman; Rev. W. J. Lowrie, T. Brown, M. Woodley, George Appel, J. W. Gabiou and James J. Kristiansen. They have appointed sub-committees and have seen to it that all the machinery operating to make the day a success was set in motion.

The parade will, as usual, be one of the features of the day. It will start near the East Brainerd bridge and leave there at 9 A. M. sharp. The divisions are expected to be in their places by 8:30 A. M. Mr. Welch will be the marshal of the parade.

The marchers will proceed in this order:  
Mounted police.  
Brainerd City Band.  
Council in carriages.  
Brainerd Ministerial association.  
Trades & Labor assembly.  
The various smaller unions of the city embracing the Carpenters and Joiners.  
Printers.  
Barbers.  
Meat Cutters.  
Electrical Workers.  
The larger unions of the city which choose by lot their position in the parade:  
Machinists.  
Boilermakers and Helpers.  
Women's Union Label League.  
Blacksmiths and Helpers.  
Retail and Railway Clerks.  
Unity Band.  
Moulders.  
Bartenders.  
Carmen.  
Bricklayers and Masons.  
Painters and Paperhangers.

The exact route has not been decided on but will range through the business district and probably follow the line of march of former parades.

The Women's Union Label League expects to have a float in the parade, and the machinists and the boiler-makers may also have a float each. One of the business houses of the city may be represented and Ritari Brothers, the cement contractors, have signified their intention of having a float.

After the parade there will be speaking at Gregory park. Two orators have been selected for the occasion. Rev. W. J. Lowrie, pastor of the First Presbyterian church, will take as his subject, "The Meaning of Labor Day." T. E. Lattimer, M. A., of Washington State University and an organizer of labor who devotes his vacations to lecturing on labor and labor problems, will take as his subject, "The McNamara Case." It has been customary to have three orators at a Labor Day celebration, but this time there will be but two. His arrangement will give the last speaker more time to devote to that absorbing case which is attracting the interest of labor and capital in parts of the country.

The American Federation of Labor has adopted resolutions that the McNamara case be discussed by one

or more orators at every labor day celebration in the country.

There will be prizes awarded, as usual, for the largest turnout, best float and the best appearing union and probably other parade prizes.

The program of sports will be held after dinner at Gregory Park and a committee meeting on this subject was held on Monday evening. On the sports committee are Frank Maloney, chairman; R. M. Sheets, Mr. Lux, John Taylor, Charles Fox and Joe Gabiou.

In the evening there will be a grand ball at Gardner's hall and the music will be furnished by the Brainerd City band. Gardner hall has been so improved, repainted and refurnished that people will hardly recognize it. A new floor has been laid and it will be an ideal place for a large dance such as the Labor Day dance always is. On this dance committee are A. Weidman, chairman; Anton Rudd, Anton Link, N. W. Betzold and P. T. Brown.

In mentioning the various committees one should not forget the all important committee which made possible this celebration. The gentlemen who collected money throughout the city for the celebration are William Fitzharris, Judge J. T. Sanborn and Dr. Werner Hemstead.

## SAM PARKER, JR., BREAKS SHOULDER

While Near Williston, N. D., Auto Loses Front Wheel and Precipitates its Occupants

### PARKER TAKES FLYING HEADER

Ball Player Was Taken Home and is Reported to be Recovering Rapidly

Sam Parker's oldest boy, Sam Parker, Jr., took a flying header from an automobile while returning from a ball game near Williston, N. D., and broke his shoulder. The auto lost its front wheel and it is a wonder the young man was not killed. The Williston Herald has the following to say of the accident:

After that game last Sunday when Sidney took us down the line to the tune of empty two to naughty 'leven the boys piled into the autos and started for home. The day was cold and dark and dreary for them.

Manager Buhler of the Orioles, who used to play a mechanical piano at Harvey and believes in "letting her go," sent his machine flying over the roadway through the valley which we once thought beautiful. Suddenly a wheel came off. Just one wheel, a front one. Mr. Buhler swallowed his chewing gum and threw his legs around the steering rod and held on. Sam was in an abstracted mood. He kept right on going after the auto suddenly stopped, and fell on his neck and wept. He sustained a broken shoulder. Dr. Burke and Dr. McNiven were present and had just finished holding a post mortem on the Sabbath afternoon game, and reached a verdict that it was bad luck to play on Sunday anyway. They took our center fielder to their bosom and bore him to a place of ease. He was brought home and is doing splendidly, but every once in a while he has a dream that he is sliding into third base and a husky ball player is giving him the spikes.

There were several of the autos that were late in getting back. Some of them didn't have the ferry fees, and others did ambulance duty.

Opposite Freight Depot Phone 250

## TENDER TRUCKS JUMP THE TRACKS

Accident on M. & I. Railway Delays the Morning Passenger Train Six Hours

### HAPPENED NEAR NORTHOME

Running at Moderate Speed—No one Hurt—Tender is Jacked Back on the Track

While running at a moderate rate of speed early this morning the Minnesota & International passenger train had an accident between Northome and Houtp stations. While on a straight track the front truck of the tender leaped the track and bumped the ties. Engineer Herman checked his train in eight car lengths and did not even jar his passengers.

Section crews in the vicinity were speedily routed out of bed and they worked through the early morning hours jacking up the tender and getting the front truck back on the rails where it belonged.

Engines were exchanged near Houtp and the train arrived in Brainerd this morning at about 9:30, six hours late.

Catarrah Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrah Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrah. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O.  
Sold by druggists, price 75c.  
Take Hall's Family Pills for constipation.

### THRESHING IN COUNTY

Wheat, Barley and Oats Threshing on in Full Blast in Crow Wing County With Good Yield

Wheat, barley and oats threshing is on full blast in Crow Wing county and a good, average yield is reported. Crops are much better than last year and the showing made is enough to convince any one that Crow Wing county can pull through with good crops while other sections have suffered drought and other troubles.

### PICNIC WILL BE SUCCESS

Two Special Trains Were Crowded With Picnickers Taking Advantage of the Splendid Weather

The first annual picnic of the merchants and clerks promises to be a huge success and the special trains leaving at 8:30 and 9:30 this morning as well as the regular train at 2:20 this afternoon were crowded with picnickers anxious to take advantage of the splendid weather for such an outing.

Lemonade is free to all visitors and the lemonade crew is almost worked to death. Some of the best athletes in Brainerd are entered on the sports program.

The most exciting event will be the baseball game between the merchants and the clerks and it will be fought out to the finish. Each side is intent on winning and the winners will land prizes ranging from merchandise to watermelons and crackers.

Knute Lagerquist is the special policeman and is provided with a hard club of summer sausage donated by one of the butchers of the city. In the first arrest made the prisoner deliberately ate up two inches of the club and then asked for enough rye bread to complete his sandwich.

### Attack Like Tigers

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at all druggists.

### TO PLAY DETROIT

Arrangements are Completed for a Game With This Fast Team For Sunday, Sept. 3

The management of the Brainerd baseball team announces that a game has been secured with Detroit for next Sunday, September 3. It promises to be a good game as the Detroit players are a fast team and will give Brainerd a most worthy battle.

Nothing has been heard from Little Falls to date regarding the acceptance of the \$300 bet. The shock has probably paralyzed some of the bettors of that town. Some one should also have stipulated that when Little Falls plays here it bring up six coaches of fans as Brainerd did when it played in the down river town.

### A King Who Left Home

Set the world to talking, but Paul Mathulka, of Buffalo, N. Y., says he always keeps at home the King of all laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25c at all druggists.

### PROMINENT RAILWAY MAN DIES

Lawrence S. McPherson, Aged 60, Dies of Bright's Disease at the N. P. Sanatorium

Lawrence S. McPherson, aged 60, died at the Northern Pacific railway sanatorium of Bright's disease last evening at about eleven o'clock. He was a prominent railway man and a foreman of the round house for 30 years or more at the shops, he was well known to a large number of shop employees and railroad men. All familiarly called him "Larry."

Mr. McPherson was born in Blairgowrie, Scotland on February 14, 1851. He emigrated to the United States shortly after the civil war and worked some time in Chicago. From there he went to St. Paul at the time the Northern Pacific railway was built. He came to Brainerd in 1872 shortly after the shops were erected and later was made round house foreman, which position he held for over 30 years. He was an active, faithful and painstaking man and was highly regarded by the company officials.

He has been sick some time but it was only about six weeks ago that he was removed to the sanatorium of the railway company. He was married in St. Paul to Miss Thompson and to them six children were born. Of these, four are living and Mrs. W. G. Percy, of Phoenix, Arizona; Lawrence D. McPherson, of Van Courver, Wash.; James and Miss Margaret McPherson, of Brainerd, all of whom have been here during their father's last illness.

His second marriage occurred 25 years ago to Miss Maggie McLean and to them two children, Mabel and Roy McPherson, were born, all of whom survive him. The funeral will be held at two o'clock Thursday afternoon from the residence, 305 North Eleventh street and probably from the Methodist church at three o'clock.

In former years the deceased was a member of the Brotherhood of Locomotive Engineers and Firemen. He was a member at his death of the lodge of Good Samaritans. The sympathy of their many friends is extended to the family in its sad bereavement.

### Thirty Years Together

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guess work in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c \$1. Trial bottle free. Guaranteed by all druggists.

### ORGANIZE CHURCH

Incorporation Papers of the First Presbyterian Church of Crosby are Filed

The incorporation papers of the First Presbyterian church of Crosby have been filed in the county register of deed's office. Following the call of Messrs. R. L. Kilpatrick, Albert Henry, H. C. Bailey, O. P. Crosby and James Nelson, a meeting was held in Frenett's hall and the organization was completed with the following officers:

President—R. L. Kilpatrick.  
Secretary—E. W. Hallett.  
Treasurer—Albert Henry.  
Trustees, for five years—J. P. Mathews; for 4 years, Mr. Webb; for 3 years, William C. Deering; for 2 years, Albert Henry; for 1 year, E. W. Hallett.

### AT LAST WE GET A COACH

Train For St. Paul Always Crowded in the Afternoon and Many People Have to Stand

For the last two weeks tourist travel from the Minnesota & International railway as well as local travel has been so heavy that the passenger train for St. Paul has been crowded every afternoon. People paying three cents a mile have stood in the aisles until Little Falls was reached when the Northern Pacific railway attached an extra coach.

On the M. & I. train also, especially Saturdays and Mondays many must stand until Nisswa is reached. Arrangements may be adequate at Little Falls but people, especially mothers and children, object to standing one whole hour in a crowded aisle until that station is reached. A ticket entitles a passenger to a seat and three cents a mile is surely enough to entitle a purchaser to such a seat. If standing room only is to be sold a reduction should be made for the privilege of standing in an aisle and being swung around curves and bumped at stops and starting.

This Saturday the crowd was so dense that the smoker was half taken by ladies and the balance filled by men while many stood in the aisles. The regular passenger coach was also crowded and carried its usual quota of standing passengers. Something or other moved the management to attach a car for the standing people and it was almost half filled in short order.

Many tourists ask for a chair or parlor car and it is thought that such a feature on this afternoon's train Only 25c at all druggists.

### SCOUT CHANGE OF VENUE

Bemidji Does Not Seem to Think That Dumas Case May be Tried in Brainerd

Bemidji, Minn., August 28—The Brainerd Dispatch article in Saturday's issue to the effect that the Dumas case might be taken there on a change of venue from this county, while read here with interest, is hardly credited.

So far as is known here, neither the state or the defense will ask for a change of venue. Assistant Attorney General James, who will remain in Bemidji until tonight, has said that he believes that a fair trial could be held here, and that this appears to be the proper place for the proceedings.

Ex-Judge Marshall A. Spooner of this city, chief counsel for Dr. Dumas, has never said that he desired a change of venue, although at times he has indicated that conditions might be such that he would do so. He has made no definite assertion either one way or the other.

Assistant Attorney General James is busy assembling the evidence to be presented and declares himself well satisfied with the progress made.

Dr. Dumas visits Bemidji, from Cass Lake, almost daily, and he makes the rounds of many places asserting that he is not one whit disturbed.

## 40 MEN WORKING ON SIDETRACKS

Soo Line Puts Gang and Steam Shovel at Work in the Town of Ironton This Week

NEAR ARMOUR NO. 2 MINE  
Tracks Also to be Laid Near Mine No. 1—Other News of Ironton Social and Business

Ironton, Minn., Aug. 29.—A large steam shovel and 40 men are working in the north end of Ironton at the Armour No. 2 mine putting in side tracks to the shaft. The Soo line has commenced track laying near and to the Armour mine No. 1.

Postmaster E. A. Wasserzleher, of Deerwood, and mother and party of friends, were automobile visitors at Ironton on Wednesday.

Mr. and Mrs. E. G. Peck recently had an exciting experience which nearly terminated with serious results. While crossing Fynn's lake they took an old row boat and started to row across. About the middle of the lake the old boat sprang a large leak and the water poured in so rapidly that they barely reached the other shore when it sank near shore.

## Privilege of Franking Likely to Be Abolished

Postmaster General  
Inquiring Into  
Alleged Abuse

The Present System  
Helps to Create a  
Postal Deficit

THE government postal frank is once more under suspicion. As a result of charges that the congressional frank is being used unlawfully for the mailing of government publications that have been sold to private parties Postmaster General Frank H. Hitchcock has begun a new inquiry into alleged abuse of the franking privilege.

This may not be the final step toward the abolishment of the congressional and government free postal frank, but it is at least one of a number of steps that are tending in that direction. Charges that this right to use the mails without charge is badly abused have become so frequent that the leading officials of the government are seriously considering its complete abolition and the giving of definite sums of money to members of congress and to the government departments to pay their postage accounts.

Members of congress persistently deny that the congressional frank is abused. Whenever there is a charge of this kind an investigation is usually demanded, and it usually fails to show any definite cases where family furniture, automobiles or cows are sent in the mail cars under the government free mail privilege.

The facts are generally admitted, however, that the illegal use of the franks of congressmen by those not entitled to them, the widespread distribution of speeches and campaign documents under the free mailing privilege, and the recklessness with which government departments have in the past poured all sorts of merchandise into the United States mails free of postage charge have added a great burden to the cost of maintaining the postal system and have helped materially in creating a postal deficit.

### Cause of Heavy Loss.

Former Postmaster General Cortelyou figured in 1904 that the free mailing system had caused a loss of \$20,000,000 to the post office department. The official figures for 1908, when all the free mail was weighed, show that the congressional frank took \$18,335 out of the post office department's income, and the "penalty envelope," under which the government departments send mail, caused a loss of \$5,219,921 in the post office department's receipts.

What the cost of franking congressional matter was last year has not yet been made public. It must have been an enormous sum, however, for the campaign committees of both political parties sent out from Washington, Philadelphia, New York and Chicago hundreds of tons of campaign "literature," consisting of extracts and speeches from the Congressional Record.

### Stories of Abuses.

The stories of fantastic things that congressmen have sent through the mails are as old as the congressional frank itself.

"The old story of the member sending his washing home under a frank and having it sent back to the capital," said former Senator Carter, "appeared in a number of books purporting to give reminiscences of Washington life and affairs. It may have been true in some isolated case, but the postoffice department has made very radical changes as to franked matter."

It is claimed that within the last few years, however, one western congressman franked his entire law library home from Washington at the end of his term. Another, taking advantage of the privilege accorded a retiring member to use the frank for nine months after his term expires, used the time to flood his old district with campaign material, carry on congressional business for his former constituents and lay all the groundwork for a campaign for re-election against his successor.

Under the penalty envelope everything from a stuffed horse sent by the postoffice department to the world's fair at Chicago to billiard tables and burglar proof safes sent out by government departments has been carried in the mail cars apparently "postage free," but really paid for by the postoffice department at the high rates charged by the railroads.

The congressman's frank, which consists of his name written across the corner of the envelope with the initials "M. C." following, is much more restricted in its use than is the "penalty envelope," under which the government departments send mail matter.

The representative or senator has the right to mail out "parts of the Congressional Record," free government seeds or official correspondence

in letters weighing not more than two ounces.

### The Tillman Incident.

The last public controversy that the postoffice department had with a member of congress was the now famous Tillman case, in 1909. Senator Tillman had been in the habit of franking his typewriter through the mails to and from his home in South Carolina.

The machine was owned by the government, and he contended that as government property it was entitled to free transportation in the mails.

The postmaster at Washington held up the typewriter when it came into the Washington office for delivery early in 1909. Senator Tillman declared he would not pay the postage on it, but the Washington postmaster secured legal endorsement of his contention that the full postage would have to be paid before it would be delivered from the office. The decision was based on the principle that a congressional frank does not cover the transportation of merchandise simply because it is government property.

For the one or two instances of this kind that have occurred in late years in the ranks of representatives and senators there have been scores in the government departments.

### Billiard Table by Mail.

On one occasion an army post in the west had a billiard table which the war department wanted to transfer to another post at a different point. Instead of being sent by freight at considerable expense to the war department it was put into the mail car under the free mailing privilege, and the postoffice department paid the railroad mail rates for its carriage.

The treasury department at Washington used to distribute iron safes weighing as much as 1,000 pounds each, filing cases, desks, chairs, office devices and other furniture from the Washington repository to all parts of the country through the mail cars. Other departments in Washington sent out furniture, typewriters and similar things. The postoffice department itself transported canceling machines, carpets, lounges and various kinds of furniture.

One of the great abuses of the franking privilege, which it is claimed, has been fairly well eradicated now, was practiced for many years by persons apparently in the employ of certain railroad companies. Great quantities of government publications, of no use to any one, would be sent out to distant points at the time that the periodic weighing of the mails was going on.

Wagon loads of these pouches would be sent under the frank of a congressman who knew nothing about the shipment and would be sent to some man who knew nothing of its coming. The weight of this and of the hundreds of other shipments of like character would be credited to the railroads as part of the mail they carried during the weighing period, and for the next few years the government would go on paying the railroads on that basis of weight.

### Trick of the Railroads.

One congressman in Michigan is authority for the statement that he received three wagon loads of publications of various kinds at his home, after congress had adjourned, for three years in succession before he found out the system.

An official report recently made in the senate pointed out that thousands of publications are thus sent to libraries.

It is claimed in this official report by a commission of the senate that from 1895 to 1909 there were 1,579,161 useless documents returned to the superintendent of documents at Washington, to be sold as waste paper. On every one of these the government paid the railroads postage charges both ways, because they were mailed as "free matter."

The "Barlow case" has figured in a number of investigations of this abuse of the franking privilege. In that case it was claimed that many sacks of this franked matter were deliberately held up at New Orleans so that they would go over a certain railroad during the mail weighing period.

The use of the congressional frank by the campaign committees is not contrary to law, but there are many members of congress and government authorities who consider it an abuse of the free mailing privilege.

### Used in Campaigns.

The Republican and Democratic congressional committees sent out last year under this provision "parts of the Congressional Record" that would have cost them thousands if not hundreds of thousands of dollars in postage.

age, or one pamphlet alone the Republicans printed 3,000,000 copies.

The entire Democratic campaign book was sent out under a congressional frank. The book was made up of "campaign thunder" that had been delivered in congress, but to make it fully frankable Chairman Lloyd of the Democratic committee read to the house of representatives the title, index and subheads of the proposed book. This made it all "part of the Congressional Record."

The Republicans sent out many copies of the "Story of a Tariff" in the same way, under congressional frank. This campaign book was also composed of congressional speeches, individual speeches were pirated and circulated by hundreds of thousands of copies.
